Site

The Robinia T3667 tree is situated in the grounds garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T3667: Robinia (14m): Fell due to poor condition, there is decay on main trunk.

Issues

I hold no objections to the proposed removal of the Robinia tree.

It is clear, from the photographs, that the leggy tree, within the copse, has a large open cavity and seam on the main stem.

Recommendation

No Objection
