Site

The trees T1 Sycamore, and T2 *Prunus* spp. are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1- Sycamore tree growing out of decking - (18m) - remove two low branches from main trunks.

T2- Diseased *Prunus* tree with poor form close to fence (7m)- reduce to just below fence.

Issues

I hold no objections to the proposed works.

Both trees have poor morphology. Crown lifting is a standard practice. Trees can be over lifted but I see no issues with the Sycamore.

Recommendation

No Objection
