Site

The trees T1 Pear and vegetation G2 Palm and Laurel are situated in the rear and front of the garden of the property. They are publicly visible at the front.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1 (rear left corner) Pear Fell to ground level

Heavily leaning tree towards the house.

Outgrown its location and heavily leaning

Harsh pruning wouldn't solve the leaning issue.

G2 (front) Palm, Laurel mixed.

May not be covered by con area/planning.

Fell to ground level and re-plant as part of a new design.

Issues

I hold no objections to the proposed works.

The pear has been reduced before and has an acute lean. The tree scores lowly when using a methodology to rate its worthiness of a Tree Preservation Order.

There is re planting planned.

Recommendation

No Objection
