Site

The Bay tree TG2, as roughly highlighted in the sketch plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

TG2 - Bay - Reduce height to match level of 1st floor windowsill @ approx 5M high.

Removing no more than 3M from height. Shape all round. Reason for work is to enhance tree amenity value by balancing canopy to create a more symmetrical crown.

(The works to T1 - Privet Hedge are no longer required).

Issues

I hold no objection to the proposed tree works. Bays generally respond well to such works.

There is a discrepancy on the sketch plan. T2 should TG2.

Recommendation

No Objection
