Site

The various trees T1- T4 are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1 Holly - Reduce height by 3.5m to level illustrated & trim sides to tidy and contain

T2 Hazel (rear right corner) - Reduce to a finished height of 4m.

T3 Hazel (rear Right Boundary) - Remove secondary limb crossing dominant stem illustrated to tidy.

T4 Mixed boundary hedging (rear of garden close to pond) - Reduce to a finished height of 3m.

Issues

I hold no objections to the proposed reasonable works. The specification is within good arboricultural practice and husbandry.

The holly can form invasive understory.

The screen between the properties will remain.

Recommendation

No Objection
