Site

The Birch tree, as marked within the report, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Muswell Hill Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

- Team to crown reduce Birch tree by approximately 3m in height and spread to create a more compact crown
- Any dead wood to be removed

Issues

I hold no objections to the proposed pruning works.

Birch trees do not always reduce well. However this Birch tree has a co dominant defect. A reduction will alleviate movement and weight within the crown.

Recommendation

No Objection
