Site

The Yew *Taxus* spp. tree T1 is situated in the front garden of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Northumberland Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

Tree location - front garden

T2 - 45+ DBH H9+ S9+ - Yew

Selectively crown reduce height and sides by approx. 1-2m regrowth to form a smaller neater symmetrically shaped canopy.

Issues

I hold no objections to the proposed reasonable works.

The specification is within good arboricultural practice and husbandry.

Yews generally respond well to such pruning.

Recommendation

No Objection
