Site

The Willow tree T1, as marked on the sketch plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Alexandra Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1: Willow (13m): Pollard to 5m from ground level to keep at a size suitable for its location, make ongoing maintenance easier and to allow more light into the garden.

Issues

I hold no objections to the proposed reasonable works.

5m above ground will take the growth back to the previous and last pruning points.

Willows generally respond well to such works and soon restore their crowns.

Recommendation

No Objection
