Site

The Cupressus Conifer tree C1, as marked on the plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

I would like to remove/fell 1x Conifer in my back garden, reference C1.

The tree is in poor health, having deteriorated over past few years. Much of the foliage is brown and is falling from the tree.

Whilst the conifer is not covered by a TPO, I shall plant new tree in the garden, most likely an apple tree.

Issues

I hold no objections to the proposed works. The conifer tree is in a state of decline and not worthy of a Tree Preservation Order.

The resident intends to re plant with a *Malus* spp.
