Site

The various trees T1- T4, as shown on the plan, are situated in the rear garden of the property. They are publicly visible from Cranbourne Road.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

Hawthorn (T1) – Reduce crown by 1.5m on all aspects.

Sycamore x 2 (T2, T3) – Reduce crowns by 1.5m on all aspects.

Beech (T4) – Reduce crown by 1.5m on all aspects.

To let more light into the garden and restrict root growth.

Issues

I hold no objections to the proposed works.

The trees have been reduced before and the specification is within standard arboricultural practice.

Recommendation
