REASONS FOR GRANTING PERMISSION

The subject site is a two storey mid-terrace dwellinghouse with a rear dormer above the main roof and outrigger. It is on the side of Woodside towards the Wolves Lane end of the road. The site is not located within any conservation area and does not fall within the curtilage of a listed building.

The planning history of the site has been taken into account when coming to this decision.

The proposed development is for a wraparound extension at the rear of the property that comprises a pitched roof above the side part of the extension with two skylights, and a flat roof with one rooflight above the rear part of the wraparound extension. Access to the rear garden would be via the new bifolding doors from the newly arranged kitchen space. The extension would be 2.4m in height along the boundary with no.97, and 3m in height along the boundary with no.101.

The height adjacent to no.97 being at 2.4m would mean that the bulk of the extension would be reduced and prevent it from overshadowing no.97, so that it would not constitute an overbearing scale. The part of the proposed extension that extends from the rear wall of the outrigger would appear subservient to the main dwelling, and its rear facing bifolding doors would not overlook the neighbouring property at the rear. There are other examples of rear extensions in the local area and so there is a precedent for this type of development.

The proposal is considered proportionate and subordinate to the host building and is in keeping with the pattern of development in the area. The proposed development is at the rear and so it would not appear incongruous on the street scene. Therefore, the local character and visual amenity of the area will be protected.

The height and depth of the extension would not result in a material loss of sunlight or daylight, or have an overbearing appearance to the neighbouring property. There will be no

material loss of privacy to neighbouring properties. The proposal is acceptable in amenity terms.

The proposed development is in general accordance with Policies DM1 and DM12 of the Development Management, Development Plan Document 2017, and policy SP11 of Haringey's Local Plan Strategic Policies 2017. The proposed development also accords with the relevant policies of the London Plan 2021 and the NPPF.

All other relevant policies and considerations, including equalities, have been taken into account. Planning permission should be granted for the reasons set out above.
