Site

The Sycamore tree T1, as marked on the plan and shown within the photograph, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Muswell Hill Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

(T1) Sycamore - Reduce height and spread by 2m to access more light into garden/property and for general tree maintenance. Remove major dead wood to make safe.

Issues

I hold no objections to the proposed repeat works. The specification is within good arboricultural practice and husbandry.

The pruning will be back to the most recent previous pruning cuts.

Recommendation

No Objection
