PLANNING HISTORY

The planning history of the site has been taken into account when coming to this decision.

SITE DESCRIPTION

The subject site is a 3 storey building comprised of mixed use commercial and residential, sited within the Muswell Hill Conservation Area.

CONSULTATION RESPONSES

No representations were received in response to the notification and publicity of this application.

PROPOSED DEVELOPMENT

This application proposes the replacement of the existing staircase to the rear residential units, with a staircase similar in design and appearance.

REASONS FOR GRANTING PERMISSION

Design and Appearance

DPD Policy DM12 'Housing Design and Quality' states that extensions or alterations to residential buildings, including roof extensions will be required to be of a high, site specific, and sensitive design quality, and respect and/ or complement the form, setting, period, architectural characteristics, detailing of the original building, including external features such as chimneys, and porches.

High quality matching or complementary materials should be used appropriately and sensitively in relation to the context. DPD Policy DM1 'Delivering High Quality Design' requires development proposals to relate positively to their locality, while Local Plan (2017) Policy SP11 requires the highest standard of design that respects local context and character and historic significance, which is equally supported by London Plan (2021) Policy D6.

The proposed replacement staircase replicates the original and is to be constructed in matching materials, thereby preserving the original character and appearance of the building.

Impact on the Character and Appearance of the Conservation Area

London Plan Policy HC1 seeks to ensure that development proposals affecting heritage assets and their settings, should conserve their significance. This policy applies to designated and non-designated heritage assets. Local Plan Policy SP12 and DPD Policy DM9 set out the Council's approach to the management, conservation and enhancement of the Borough's historic environment.

DPD Policy DM9 states that proposals affecting a designated or non-designated heritage asset will be assessed against the significance of the asset and its setting, and the impact of the proposals on that significance; setting out a range of issues which will be taken into account. In relation to extensions or alterations to residential buildings, including roof extensions, Policy DM9 requires proposals to be of a high, site specific, and sensitive design quality, which respect and/ or complement the form, setting, period, architectural characteristics, detailing of the original buildings, including external features such as chimneys, and porches. The policy also requires the use of high-quality matching or complementary materials, in order to be sensitive to context.

It is considered that the proposed replacement, use of similar materials and matching design complements the host building and surrounding conservation area.

Impact on Neighbouring Amenity

DPD Policy DM1 'Delivering High Quality Design' states that development proposals must ensure a high standard of privacy and amenity for a development's users and neighbours. Specifically, proposals are required to provide appropriate sunlight, daylight and aspects to adjacent buildings and land, and to provide an appropriate amount of privacy to neighbouring properties to avoid overlooking and loss of privacy and detriment to amenity of neighbouring resident.

The proposed replacement staircase is not considered to present harmful impacts to neighbouring amenity.

The proposal is considered proportionate and subordinate to the host building and is in keeping with the pattern of development in the area. Therefore, the local character and visual amenity of the area will be protected.

The proposed development is in general accordance with Policies DM1, DM9, and DM12 of the Development Management, Development Plan Document 2017, and policies SP11 and SP12 of Haringey's Local Plan Strategic Policies 2017. The proposed development also accords with the relevant policies of the London Plan 2021 and the NPPF.

The proposal would comply with Policy DM9 of the Development Management, Development Plan 2017 and will preserve or enhance the character and appearance of the conservation area.

All other relevant policies and considerations, including equalities, have been taken into account. Planning permission should be granted for the reasons set out above.

Conditions:

- 1 The development to which this permission relates must be begun no later than three years from the date of this decision notice, failing which the permission shall be of no effect.

Reason: This condition is imposed by virtue of Section 91 of the Town and Country Planning Act 1990 and to prevent the accumulation of unimplemented planning permissions.

- 2 The development hereby permitted shall be carried out in complete accordance with the approved plans and drawings listed in this decision notice, other than where those details are altered pursuant to the conditions of this planning permission.

Reason: For the avoidance of doubt and in the interests of proper planning.

- 3 The external materials to be used for the proposed development shall match in colour, size, shape and texture those of the existing building.

Reason: In order to ensure a satisfactory appearance for the proposed development, to safeguard the visual amenity of neighbouring properties and the appearance of the locality consistent with Policy D3 of the London Plan 2021, Policy SP11 of the Haringey Local Plan 2017 and Policy DM1 of The Development Management DPD 2017.
