Details of the pre-application advice received

Principle of development: the principle of converting the loft and providing additional accommodation at roof level is acceptable in principle, however, due to the constraints of the site, the potential for additional volume at the roof level is limited, as detailed below and explained at the meeting.

- Design, layout & heritage: at the meeting it was explained that the site acts as a bookend of terrace. Due to this and the local topography, the side elevation and roof are visible from the public realm and exposed to views from the top of the hill, at the junction with Holmesdale Road. In addition, the roof form is clearly visible as part of a continuous roofline with the entire terrace along it.

As such, the historic roofline is sought to be preserved and the proposal would contradict this. This is apparent with both presented options. Whilst this is not a preferred option, it was suggested that the rear 2-storey extension could be rebuilt and reconfigured to improve internal layout and room configuration.

- Amenity: there are no major amenity concerns with this proposal. All new windows overlooking adjoining properties would be expected as obscured or with a similar solution to protect privacy.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

- ☒ No
