Re: single storey side-rear extension to single dwelling residential house.

Project: 44 Sheldon Avenue – Highgate N6 4JR.

Dear Sirs:

The proposed planning application is for ground floor rear-side extension to single dwelling of detached house inside a residential street which has other properties with similar extensions. The proposal are in keeping with immediate neighbors in the street.

The proposed roof over side-rear extension is formed as matching design to existing rear extension roof to existing premises with matching height and brick finish. The proposal for rear-side extension to rear part of existing utility room to form Passover kitchen with new roof light over flat roof to keep in line with current roof design and matching structure to comply with planning policies. The site is located with Highgate conservation areas and such proposal is in line with conservation design policies set within Haringey Core Planning Strategy.

The proposed rear-side extension designed to replicate current structure façade and line up with immediate adjoining properties which benefit from identical schemes extensions. The scheme designed to avoid impact to immediate adjoining premises as the neighboring house having a single storey side-rear extension adjacent to existing side boundary and therefore such development will not impact the amenity of adjoining sites and privacy. The applicant is the owner of single dwelling house. Please see attached copies of relative drawings with forms & fee for the proposed works. We hope the information provided is satisfactory and should you have any queries please do not hesitate to contact us.

Yours truly,

R. Lakani
Director

Re: single storey side-rear extension to single dwelling residential house.

Project: 44 Sheldon Avenue – Highgate N6 4JR.

Schedule of works For Internal Areas:

It was made evident that the current internal areas to dwelling consist of MDF skirting and architraves and it is proposed to retain all current joineries and proposal for ground floor rear - side extension and internal Passover kitchen to family house.

All door frames and openings retained and will not impacted by the proposed works as shown on proposed plans. The ceiling areas and decorations to be retained as part of works and painted then all current walls protected. The original structural components to main building retained and remain unchanged with no alterations to the floor joists and floor boards.

**DESIGN & ACCESS STATEMENT FOR CONSERVATION AREA
ASSESSMENT**

Have you assessed the elements which constitute the historic and special architectural interest/character of the building? If there is particular adverse impact on these explain what is the purpose of your proposal, why is it necessary and what approach of the design has been taken to minimize impact.

To carry GF rear- side extension to create new Passover kitchen to serve family house and retain current use

Does your proposal have an impact on the building's setting? If so, what is the impact; does it enhance significant views of the building and how does it affect the character of the wider area?

The existing buildings external walls retained then carrying ground floor rear side extension to form subordinate scheme to meet policies.

If an extension or new structure is proposed, explain the scale, height, width and length of the proposal and its relationship to the existing building. How is the special character and fabric of the listed building being affected?

The proposal is designed to avoid any impact to neighboring premises and side extension designed set back 1m at rear structure and set inward from corner at side boundary to create subordinate design.

If an extension is proposed, what thought has been given to it's appearance, position, visual impression, architecture, materials, decoration, lighting, colour and texture?

The proposal is to keep original features of the premises then all external walls to side extension in brown brick finish in matching compliance with site constraints. The roof over side extension in matching existing roof finishing.

If internal works or alterations are being proposed, what is the relationship between your proposal and the original layout, fabric and features of the building?

The main building has been extended in past and proposed side extension in matching finishing to main building and set back at rear and side elevation with all material matching existing.

Describe the materials you propose to use, why you chose them, the way in which they relate to the historic character of the building? Have environmentally friendly materials been considered? What consideration has been given to maintenance?

The proposal to carry side extension to have matching material to current scheme and all design to the works to replicate immediate neighboring premises which have similar scheme approved and carried out the works

How have you followed the advice provided by CABE* and Haringey City Council on the issue of inclusive access ? If not explain the reasons for your departure from this guidance.**

There are no public routes or impact under proposed scheme

What consideration has been given to accessibility, to and between parts of the proposed works? Has disabled access been considered?

The proposal has no adverse impact or requirement to change existing accessibility and only limited to side extension to form Passover kitchen set back and away from boundary.

Re: single storey side-rear extension to single dwelling residential house.

Project: 44 Sheldon Avenue – Highgate N6 4JR.

CONSERVATION CONSENT FOR INTERNAL RENOVATION ONLY
