## **Site**

The Holly *Ilex* spp. tree T2, as marked on the plan and seen in the photograph, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

## **Proposal**

Tree works proposed:

To remove Holly, T2, in rear garden adjacent to fence line.

## **Issues**

I hold no objection to the removal of the understory holly. No reason has been given for the removal of the tree however it is low grade, no amenity value, and would score low using a methodology for rating its worthiness of a Tree Preservation Order (TPO).

The back boundary will have succession from the seedbank and a self-set will fill the gap over time.

## **Recommendation**

**No Objection**
