

Notes :

This drawing has been prepared in accordance with BS 5837:2012.

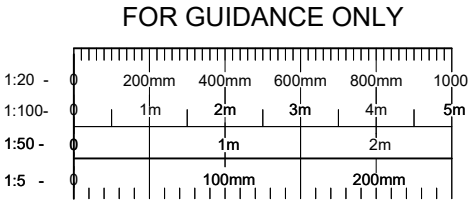

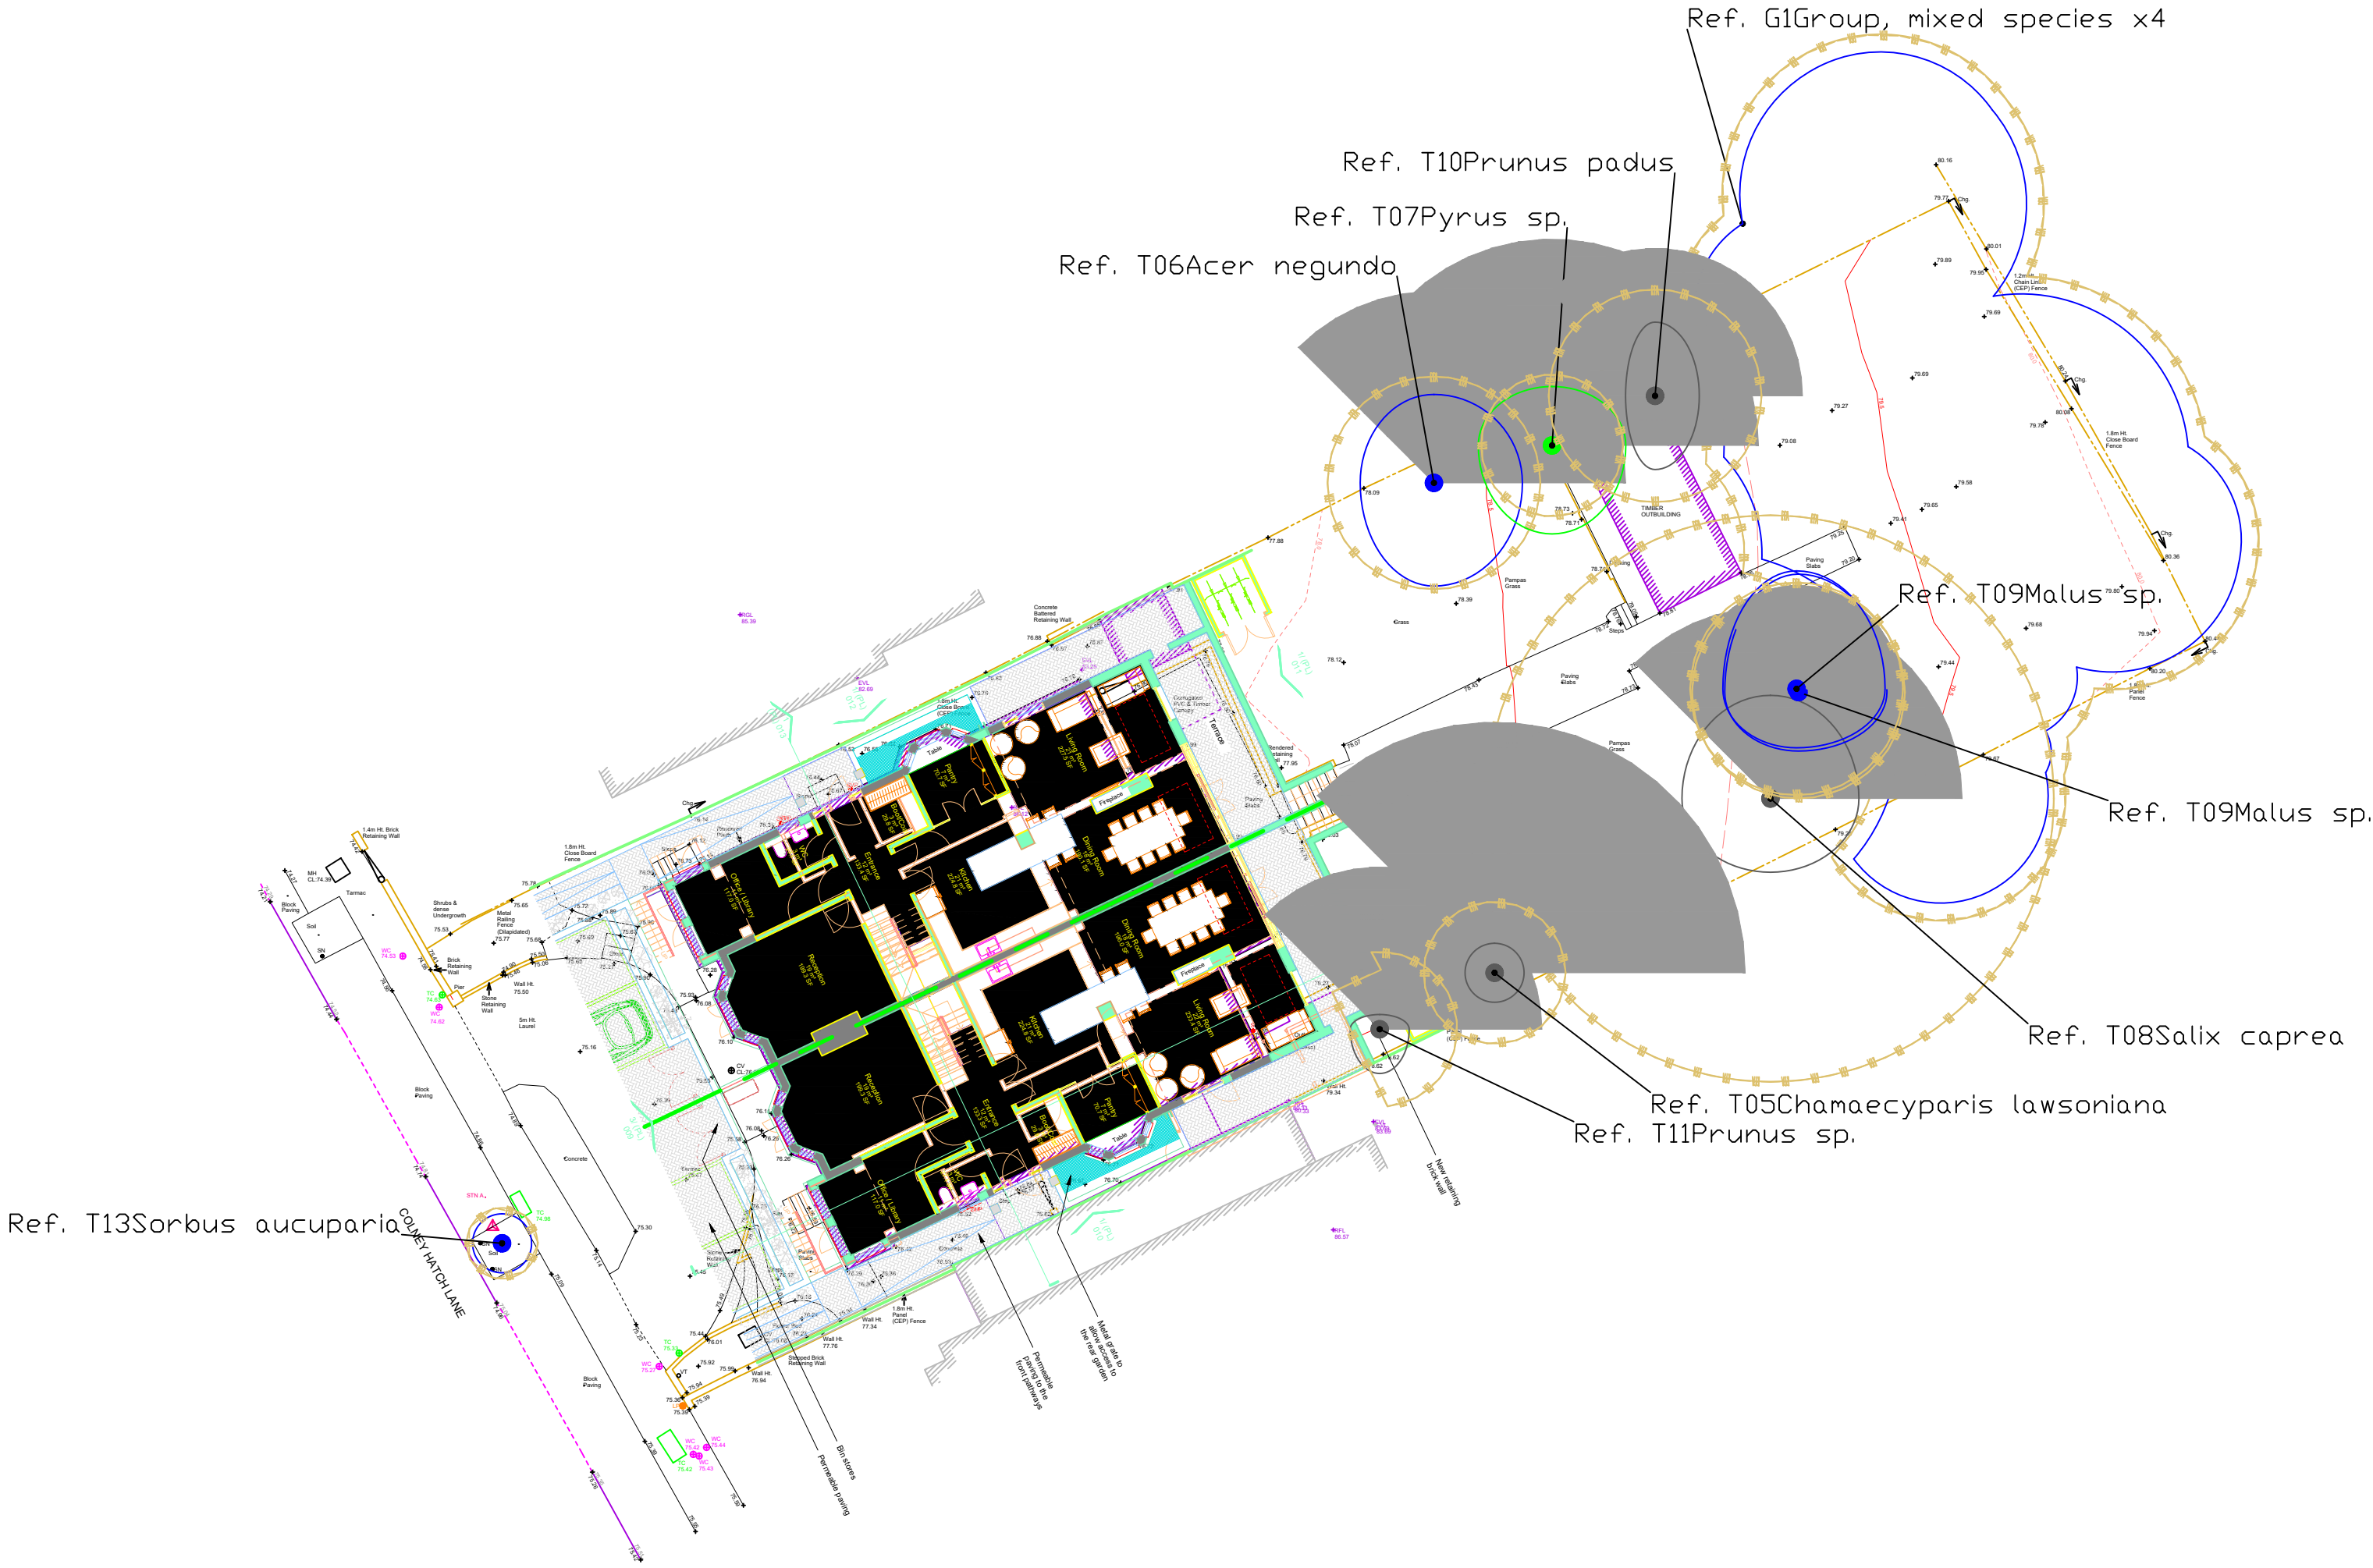

This drawing is intended to be printed and used in colour only, and for no purpose other than the consideration of trees in accordance with BS 5837.

BS5837:2012 Cascade chart for tree quality assessment

Category & Definition	Criteria (including subcategories where appropriate)	Identification (on plan)
Trees unsuitable for retention		
Category U		
Tree in such a condition that it is unlikely to survive for more than 5 years, or a tree which is dead or dying, or a tree which is so damaged that it is unlikely to survive for more than 5 years, or a tree which is so damaged that it is unlikely to survive for more than 5 years.	Tree that has a serious immediate structural defect, such that its early loss is expected due to safety concerns. Tree that is dead or dying, or a tree which is so damaged that it is unlikely to survive for more than 5 years, or a tree which is so damaged that it is unlikely to survive for more than 5 years.	Red on plan RGB 127,0,0
Trees to be considered for retention		
Category A		
Tree of high quality with a canopy that is well developed and a trunk that is free from major defects. The tree is a specimen of its kind, or a tree which is of particular interest to the community, or a tree which is of particular interest to the community, or a tree which is of particular interest to the community.	Tree that has a primary role in the landscape, or a tree which is of particular interest to the community, or a tree which is of particular interest to the community, or a tree which is of particular interest to the community.	Light Green RGB 0,205,0
Category B		
Tree of moderate quality with a canopy that is well developed and a trunk that is free from major defects. The tree is a specimen of its kind, or a tree which is of particular interest to the community, or a tree which is of particular interest to the community, or a tree which is of particular interest to the community.	Tree that has a secondary role in the landscape, or a tree which is of particular interest to the community, or a tree which is of particular interest to the community, or a tree which is of particular interest to the community.	Medium Green RGB 0,100,0
Category C		
Tree of low quality with a canopy that is well developed and a trunk that is free from major defects. The tree is a specimen of its kind, or a tree which is of particular interest to the community, or a tree which is of particular interest to the community, or a tree which is of particular interest to the community.	Tree that has a tertiary role in the landscape, or a tree which is of particular interest to the community, or a tree which is of particular interest to the community, or a tree which is of particular interest to the community.	Grey RGB 091,091,091
