Description of the Proposal

Please provide a description of the approved development as shown on the decision letter

Application by National Grid Electricity Transmission plc for an Order Granting Development Consent for the North London Reinforcement Project for the uprating of an existing 275kV transmission line of approximately 14km in length from Waltham Cross substation to Tottenham substation to enable it to run at a voltage of 400kV, together with associated development, in summary:

- An extension to and minor route re-alignment at Waltham Cross substation to incorporate new 400kV gas insulated switchgear (GIA);
- New transformers and new sealing end compounds at Brimsdown substation;
- A 400kV 'bypass' to Tottenham substatio, connecting the application proposal to the existing VC alignment to the south, which is the subject of a separate uprating proposal and will operate at 400kV in due course.
