Description of Proposed Works

Please describe the proposed works

We have large French windows that are 12-15 years. These open up into our garden from our living area. The living area is open plan with our kitchen and dining room. Due to the age of these windows, there is a constant draft making our living room, dining room and kitchen basically unbearable during the winter months. We experience a constant cold draft making the living areas unbearable and uninhabitable. We often spend no time in the living area due to the cold in that area. We could obviously put the heating on for longer but this has now become impractical due to fuel crisis. Like many in the UK, we are experiencing very very high fuel bills and so I would like to replace these windows. I am keen to improve our insulation.

The aim being that we would be able to insulate our home better. This would help us and the environment. Our windows are not visible to any neighbour.

Ideally I would like these wooden windows replaced with aluminium double glazed windows. This will improve our insulation, well being and obviously safety & security.
