Site

The conifer trees T1 Blue Spruce, and T2 Cypress are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

Blue spruce (T1) - Fell. The tree is too close to the building.

Cypress (T2) - Reduce height by 3m. To let more light in and restrict root growth.

Issues

I hold no objections to the proposed tree works. Both trees have low amenity value, and are not worthy of a Tree Preservation Order.

The Blue Spruce has been over lifted.

Recommendation

No Objection
