Site

The mature Lime *Tilia* spp. T1 tree, as shown in the photograph and marked on the plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1: Lime tree, reduce height back to previous Pollard points and thin crown. To reduce over shading and loading.

Issues

I hold no objections to the proposed reasonable repeat tree works of pruning back to the most recent previous pruning points.

The specification is within good arboricultural practice and husbandry.

Recommendation

No Objection
