

Highgate CAAC objection to HGY/2023/0441 for 11 and 11A View Road, N6 - photos

Since the description and plan of the site in the tree protection plan could be seen as somewhat misleading, here are some photos of the site viewed from Highgate Allotments, Yeatman Road. The “Leyland hedge” and “Privet hedge” are notable landscape features forming a backdrop to Highgate Allotments and are home to many birds, bats etc.

The northern corner of 11A's garden and “Leyland hedge” along the border with Highgate Allotments:

The “Privet hedge” along the border with the Highgate Allotment site.

Bats are often seen flying along the edge of these gardens at dusk.

The “Leyland hedge” and other trees in the back garden of 11 and 11A View Road are clearly visible from Yeatman Road.
