The Cherry *Prunus* spp. tree, as shown in the video, is situated in the rear communal garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

Five Day Notice. There is a cherry tree in the rear garden of the above property which is in a really bad way, I am concerned large branches may fall in a high wind. I would like to submit this 5 day notice for removal of the tree ASAP. Please see the attached video file.

Issues

I hold no objection to the removal of the cherry tree.

It is clear from the footage that the tree is severely cankered and in affect the branches are being ring barked.

Recommendation

No Objection
