Site

The various conifer trees H1- T2, as shown on the plan and seen in the photographs, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

Conifer & Ash Mix Hedge (H1): Reduce down hedge line at rear by 3-4 metres

Yew Tree (T2): Reduce garden side by approx. 2 metres to bring into shape as crown unbalanced

(The works to T1 Oak will be considered separately under application reference HGY/2023/0474 as the tree is protected by a Tree Preservation Order).

Issues

I hold no objections to the proposed works.

The client and agent have agreed to slightly lesser works with the largest confers on the back boundary being reduced by 2-3m and the remaining conifers being not or reduced by 1-2m.

This will in affect top the trees and curtail apical growth, and leave them at a reasonable height and still a good feature.

T2 the Yew generally respond well to such works.

Recommendation

No Objection
