

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4, Alexandra House, Station Road, N22 7TY

Application number	HGY/2023/0814
Application type	Conservation Area Notification
Site Address:	21 Collingwood Avenue, Hornsey, London, N10 3EH
Proposal	T1: Robinia - Removal - The mature Robina tree has dieback in the crown, and extensive deadwood throughout. Bark is flaking away at base of the tree, showing the outer wood to be decaying. Propose to sectional fell, cutting the trunk as close to ground level as possible. T2: Apple - Removal - Ivy has over taken the majority of the crown. Remove ivy and fell to ground level. T3: Eucalyptus - Pruning - The mature eucalyptus has previously been pollarded, resulting in vigorous regrowth. Ivy has also surrounded the trunk and has established itself over the entire tree. Propose to sever and remove all the ivy, reduce the regrowth back to previous pruning point, leaving suitable furnishing growth where possible.

RECOMMENDATION:	No Objection	
Application date	23/04/2023	
Tree Inspector	DM	Date: 26 th April 2023

Site

The various trees T1-T3, as marked on the plan and shown within the photographs, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1: Robinia - Removal - The mature Robinia tree has dieback in the crown, and extensive deadwood throughout. Bark is flaking away at base of the tree, showing the outer wood to be decaying. Propose to sectional fell, cutting the trunk as close to ground level as possible.

T2: Apple - Removal - Ivy has over taken the majority of the crown. Remove ivy and fell to ground level.

T3: Eucalyptus - Pruning - The mature eucalyptus has previously been pollarded, resulting in vigorous regrowth. Ivy has also surrounded the trunk and has established itself over the entire tree. Propose to sever and remove all the ivy, reduce the regrowth back to previous pruning point, leaving suitable furnishing growth where possible.

Issues

I hold no objections to the proposed tree works.

It is evident the Robinia tree is with in a poor condition, the apple tree is low grade not worthy of a tree preservation order, and the pruning back to the previous on the Eucalyptus is standard tree work within good arboricultural practice.

Recommendation

No Objection
