RECOMMENDATION:	No Objection	
Application date	23/03/2023	
Tree Inspector	DM	Date: 26 th April 2023

Site

The mature Lime *Tilia* spp. tree T1, as marked on the plan and seen within the photograph, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Muswell Hill Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1 - Lime tree- (19m) showing signs of crown die back- reduction of top height by approximately 4m, prune in lateral branches by up to 4m, remove dead branches. Lift crown to 5m from ground level. Remove basal sprouts.

Issues

I hold no objections to the proposed tree works.

The Lime has a declining crown, and it is hoped that the slightly heavier crown reduction will rejuvenate the crown at a lower height.

Recommendation

No Objection
