3.2 BUILDING 2 UPPER FLOORS - THIRD TO SIXTH FLOOR

Approved

Proposed

1. The layout of the 1 bed apartment adjacent to the stair has been revised to respond to the new stair arrangement.
2. The communal stair has rotated through 90degrees to allow a second stair to work in conjunction.
3. A second fire escape stair has been added between ground floor to upper levels.
4. The communal corridor has reduced in width from 2m to 1.5m to accommodate the revised riser layout.
5. Due to the addition of the second stair, the position of the access to the stairs has changed to resolve level changes across all floors.
6. Service risers have been relocated within the core following the addition of the second staircase.
7. Additional doors have been added within the communal corridors to comply with the latest fire strategy.
