Site

The Cypress and Lilac trees TR1 & T2, as marked on the plan and shown in the photographs, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Alexandra Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1 - Cypress tree (8m, 0.9m) - take down to ground level. T2 - Lilac tree (4m) - remove stems that are leaning on fence.

Issues

I hold no objections to the proposed tree works.

The Cypress tree T1 is low grade and a poor specimen not worthy of a tree preservation order.

The proposed works to the Lilac is reasonable pruning.

Recommendation

No Objection
