4. MATERIAL PLANNING CONSIDERATIONS

The main planning considerations raised by the proposed development are:

1. Design and character and appearance of the area; and
2. Impact on neighbouring amenity.

Design and character and appearance of the conservation area

DPD Policy DM12 'Housing Design and Quality' states that extensions or alterations to residential buildings, including roof extensions will be required to be of a high, site specific, and sensitive design quality, and respect and/ or complement the form, setting, period, architectural characteristics, detailing of the original building, including external features such as chimneys, and porches. High quality matching or complementary materials should be used appropriately and sensitively in relation to the context. DPD Policy DM1 'Delivering High Quality Design' requires development proposals to relate positively to their locality, while Local Plan (2017) Policy SP11 requires the highest standard of design that respects local context and character and historic significance, which is equally supported by London Plan (2021) Policy D6.

The proposed works are considered to be minor alterations which would not result in a significant change to the host property. Therefore, it is not anticipated that the development would constitute any harm to the character and appearance of the host property or the general area.

As such the proposed development is in accordance with Policies DM1 and DM12 of the Development Management, Development Plan Document 2017, and policy SP11 of Haringey's Local Plan Strategic Policies 2017. The proposed development also accords with the relevant policies of the London Plan 2021, the NPPF.

Impact on neighbouring amenity

London Plan Policy D6 outlines that design must not be detrimental to the amenity of surrounding housing, in specific stating that proposals should provide sufficient daylight and sunlight to surrounding housing that is appropriate for its context, while also minimising overshadowing. London Plan Policy D14 requires development proposals to reduce, manage and mitigate noise impacts.

DPD Policy DM1 'Delivering High Quality Design' states that development proposals must ensure a high standard of privacy and amenity for a development's users and neighbours. Specifically, proposals are required to provide appropriate sunlight, daylight and aspects to adjacent buildings and land, and to provide an appropriate amount of privacy to neighbouring properties to avoid overlooking and loss of privacy and detriment to amenity of neighbouring resident.

Due to the nature of the development which does not result in further projections, no amenity impacts will arise. Given the site is an end of terrace property there are not adjoining sites on the western side, therefore the side window would not cause any concerns with loss of privacy.

Consequently, the proposed development would not cause any adverse impacts against the amenity of neighbouring sites with respect to loss of daylight/sunlight, loss of outlook and an heightened sense of enclosure.

As such, due to the above considerations the proposed development would not inflict any adverse impact against the amenity currently enjoyed by neighbouring properties and is in compliance with policy D6 of the London Plan and policy DM1 of the DPD.

Conclusion

The proposal is considered acceptable in terms of its impact upon the character and appearance of the host property and surrounding area.

All other relevant policies and considerations, including equalities, have been taken into account. Planning permission should be granted for the reasons set out above. The details of the decision are set out in the RECOMMENDATION

Conditions:

- 1 The development to which this permission relates must be begun no later than three years from the date of this decision notice, failing which the permission shall be of no effect.

Reason: This condition is imposed by virtue of Section 91 of the Town and Country Planning Act 1990 and to prevent the accumulation of unimplemented planning permissions.

- 2 The development hereby permitted shall be carried out in complete accordance with the approved plans and drawings listed in this decision notice, other than where those details are altered pursuant to the conditions of this planning permission.

Reason: For the avoidance of doubt and in the interests of proper planning.

- 3 The external materials to be used for the proposed development shall match in colour, size, shape and texture those of the existing building.

Reason: In order to ensure a satisfactory appearance for the proposed development, to safeguard the visual amenity of neighbouring properties and the appearance of the locality consistent with Policy D3 of the London Plan 2021, Policy SP11 of the Haringey Local Plan 2017 and Policy DM1 of The Development Management DPD 2017.
