Site

The mature Sycamore tree T1, as marked on the plan and shown in the photograph, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1- Sycamore tree- (12m) Crown reduction back to most recent pruning points, approximately 2m reduction.

Issues

I hold no objections to the proposed reasonable repeat works to prune back to the most recent previous points.

The specification is within good arboricultural practice and husbandry.

Sycamores generally respond well to such reduction works.

Recommendation

No Objection
