Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

The subject site is a two-storey semi-detached house on the north side of Cholmeley Crescent. The site is located within the Highgate Conservation and within a defined critical drainage area.

The proposed landscaping scheme has been designed to create a usable garden, re contouring the existing steep topography of the land, creating tiered garden levels, whilst retaining as much existing green cover and soil as possible.

Has the work or change of use already started?

Details of the pre-application advice received

The subject site is a two-storey semi-detached house on the north side of Cholmeley Crescent. The site is located within the Highgate Conservation and within a defined critical drainage area. There are a number of trees within and around the site that may be affected by the proposed works.

Given the degree of recontouring proposed the works are likely to require planning permission.

The proposed scheme would be acceptable in principle subject to the following:

- The application is supported by a tree survey assessing the impact of the proposal on any trees within or close to the site.
- The scheme should be designed to retain and protect any trees identified as having significant amenity or environmental value.
- The overall level of existing green cover should be retained in line with London Plan Policy G5 'Urban Greening'.
- Where necessary an appropriate boundary treatment should be included within the proposal to prevent any significant increase in overlooking of neighbouring properties.
- The proposal should incorporate sustainable drainage measures to prevent any increase in the sites run off rate.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
