The Black Locust tree T1, as shown in the photograph and marked on the plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1 - Black Locust tree - Removal of the lowest lateral branch growing east over the neighbours garden to stop the pigeon making a mess of the decking, See photo attached.

Issues

I hold no objections to the proposed reasonable pruning works.

The applicant has highlighted the branch for removal. This will have no significant affect on the morphology of the tree.
