

Officer's Report

Application Number	HGY/2023/0868
Type	Householder planning permission
Location	50 Seymour Road, Hornsey, London, N8 0BE
Proposal	Proposed single storey side infill rear extension
Case Officer	Ben Coffie
Valid Date	28/03/2023
Applicant	Mr Coleman
Agent	Mr Dan Brandt

RECOMMENDATION

Approve with Conditions

PROPOSED DEVELOPMENT AND LOCATION DETAIL

Proposed Development.

The application proposes a side infill extension. The proposed side infill extension would measure 1.7m in width and 4.4m in depth, it would have a maximum height of 2.6m.

The site already benefits from a side extension, however this would be demolished for the proposed side extension.

Site and Surroundings

The application property is a two storey terrace dwelling house located on the south side of Seymour Road. The properties are characterised by two storey bay windows with crown roofs above them. They are finished with render and some cases brick. At the rear are two storey outrigger which project by approximately 4.5m.

The site does not lie in a conservation area and is not listed.

LOCAL REPRESENTATIONS

The application has been publicised by way letters. The number of representations received from neighbours, local groups, etc. in response to notification and publicity of the application were as follows:

No of individual responses: 0

Objecting: 0

Supporting: 0

MATERIAL PLANNING CONSIDERATIONS

The main planning considerations raised by the proposed development are:

1. Design and impact on the character and appearance of the area;
2. Impact on neighbouring amenity.

Design and impact on the character and appearance of the conservation area

DPD Policy DM12 'Housing Design and Quality' states that extensions or alterations to residential buildings, including roof extensions will be required to be of a high, site specific, and sensitive design quality, and respect and/ or complement the form, setting, period, architectural characteristics, detailing of the original building, including external features such as chimneys, and porches. High quality matching or complementary materials should be used appropriately and sensitively in relation to the context. DPD Policy DM1 'Delivering High Quality Design' requires development proposals to relate positively to their locality, while Local Plan (2017) Policy SP11 requires the highest standard of design that respects local context and character and historic significance, which is equally supported by London Plan (2021) Policy D6.

The scale, height and bulk of the proposed side extension is considered acceptable and would be integrated appropriately within the rear context. The extension would not have any impact on the streetscene due to its location at the rear of the terrace. Therefore, there are no concerns with regards to any potential harm to the character and appearance of the host dwelling and the general area.

As such proposed development as a whole is in general accordance with Policies DM1 and DM12 of the Development Management, Development Plan Document 2017, and policy SP11 and SP12 of Haringey's Local Plan Strategic Policies 2017. The proposed development also accords with the relevant policies of the London Plan 2021 and the NPPF.

Impact on neighbouring amenity

London Plan Policy D6 outlines that design must not be detrimental to the amenity of surrounding housing, in specific stating that proposals should provide sufficient daylight and sunlight to surrounding housing that is appropriate for its context, while also minimising overshadowing. London Plan Policy D14 requires development proposals to reduce, manage and mitigate noise impacts.

DPD Policy DM1 'Delivering High Quality Design' states that development proposals must ensure a high standard of privacy and amenity for a development's users and neighbours. Specifically, proposals are required to provide appropriate sunlight, daylight and aspects to adjacent buildings and land, and to provide an appropriate amount of privacy to neighbouring properties to avoid overlooking and loss of privacy and detriment to amenity of neighbouring resident.

Side infill extensions to the side of rear outriggers in terrace dwellings could potentially result in significant impacts to neighbouring sites where their heights and depth are not moderately designed.

The proposed side extension due to its location is only likely to impact upon the amenity of the occupiers of the adjoining dwellings on the south of the site particularly no. 48, however it is noted that this adjoining property benefits from a side extension along the shared boundary which would offset any potential adverse impact against the amenity of the occupiers of the site.

Consequently, due to the above considerations the proposed development would not inflict any adverse impact on the amenity currently enjoyed by neighbouring properties and is in compliance with policy D6 of the London Plan and policy DM1 of the DPD.

Conclusion

The proposal is considered acceptable to the host property and would not harm the character and appearance of the host dwelling and area nor would it cause any impacts against the amenity of neighbouring sites.

All other relevant policies and considerations, including equalities, have been taken into account. Planning permission should be granted for the reasons set out above. The details of the decision are set out in the RECOMMENDATION.

Conditions:

- 1 The development to which this permission relates must be begun no later than three years from the date of this decision notice, failing which the permission shall be of no effect.

Reason: This condition is imposed by virtue of Section 91 of the Town and Country Planning Act 1990 and to prevent the accumulation of unimplemented planning permissions.

- 2 The development hereby permitted shall be carried out in complete accordance with the approved plans and drawings listed in this decision notice, other than where those details are altered pursuant to the conditions of this planning permission.

Reason: For the avoidance of doubt and in the interests of proper planning.

- 3 The external materials to be used for the proposed development shall match in colour, size, shape and texture those of the existing building.

Reason: In order to ensure a satisfactory appearance for the proposed development, to safeguard the visual amenity of neighbouring properties and the appearance of the locality consistent with Policy D3 of the London Plan 2021, Policy SP11 of the Haringey Local Plan 2017 and Policy DM1 of The Development Management DPD 2017.

Informatives:

- **INFORMATIVE: Hours of Construction Work**
The applicant is advised that under the Control of Pollution Act 1974, construction work which will be audible at the site boundary will be restricted to the following hours:-
8.00am - 6.00pm Monday to Friday
8.00am - 1.00pm Saturday
and not at all on Sundays and Bank Holidays.
- **INFORMATIVE: Party Wall Act**
The applicant's attention is drawn to the Party Wall Act 1996 which sets out requirements for notice to be given to relevant adjoining owners of intended works on a shared wall, on a boundary or if excavations are to be carried out near a neighbouring building.

- **INFORMATIVE: Land Ownership**
The applicant is advised that this planning permission does not convey the right to enter onto or build on land not within his ownership.
