SITE DESCRIPTION

The subject site is a two storey, dwelling located on the eastern side of Bruce Castle Road.

The site is not within any Conservation Area.

CONSULTATION RESPONSES

No representations were received in response to the notification and publicity of this application.

REASONS FOR GRANTING PERMISSION

This application proposes a single storey rear infill extension between the original two storey outrigger and boundary shared by No.56 and alterations to the existing rear elevation including the removal of an outbuilding and the addition of an enlarged door.

The proposed extension is to be constructed in materials which would match the original materials used in construction of the dwelling and this extension. The proposal is considered proportionate and subordinate to the host building and is in keeping with the pattern of development in the area. Therefore, the local character and visual amenity of the area will be protected.

Where the infilled area meets the neighbouring boundary, the extent of the height has been limited to under 2.3m, thereby limiting harmful impact to neighbouring amenity. The height, depth and placement of the extension would not result in a material loss of sunlight or daylight or have an overbearing appearance to the neighbouring property. It is not considered that the enlarged rear door would present any additional harm to the existing situation. There will be no material loss of privacy to neighbouring properties. The proposal is acceptable in amenity terms.

The proposed development is in general accordance with Policies DM1, DM9, and DM12 of the Development Management, Development Plan Document 2017, and policies SP11 and SP12 of Haringey's Local Plan Strategic Policies 2017. The proposed development also accords with the relevant policies of the London Plan 2021 and the NPPF.

All other relevant policies and considerations, including equalities, have been taken into account. Planning permission should be granted for the reasons set out above.
