Attachments: CMP 456-460 High Road N17 9JD REV A (1).pdf

Hello Kwaku,

Transport comments are as follows:

- a. The construction management plan (CMP) indicates an overall programme of approximately 20 weeks.
- b. The CMP should include plans to illustrate site hoardings, scaffolding and 'pit lane' for accommodating construction vehicles expected to deliver or remove materials from the site. This would help to ensure loading area is available for construction vehicles when required.
- c. A highway dilapidation survey should be undertaken in agreement with LBH Highway Officers, to record existing highway conditions.
- d. Details of largest vehicles expected should be provided together with vehicle swept path to demonstrate vehicles entering and exiting the loading bay.
- e. Details of measures to protect existing occupiers, market visitors / traders and arrangements to resolve conflicts between construction vehicles and other vehicles that also require access.

Mario, please advise as appropriate

Regards,

Shreekant Patel
