Site

The Sycamore tree T1, as marked on the sketch and seen in the photograph, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Stroud Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1 Sycamore: crown reduction by 30% to reduce excessive shading.

Issues

I hold no objections to the proposed tree work pruning.

The Sycamore has been reduced before. The crown reduction will take the crown back to the most recent previous.

Recommendation
