

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4, Alexandra House, Station Road, N22 7TY

Application number	HGY/2023/1291
Application type	Conservation Area Notification
Site Address:	Flat A, 63 Upper Tollington Park, Hornsey, London, N4 4DD
Proposal	Sycamore (T1) - Pollard the tree at approx. 3m. lime (T2) – Pollard the tree at approx. 3m. The trees have been heavily pollarded in the past. This will start a new pollard point lower down, to let more light into all the surrounding gardens and restrict the root growth. The trees are within 5m of the property.

RECOMMENDATION:	No Objection	
Application date	15/05/2023	
Tree Inspector	DM	Date: 6 th June 2023

Site

The Sycamore T1 and Lime T2 trees, as marked on the plan and shown in the photographs, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Stroud Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

Sycamore (T1) - Pollard the tree at approx. 3m.

lime (T2) – Pollard the tree at approx. 3m.

The trees have been heavily pollarded in the past. This will start a new pollard point lower down, to let more light into all the surrounding gardens and restrict the root growth. The trees are within 5m of the property.

Issues

I hold no objections to the proposed tree works.

The Sycamore and Lime tree are both managed high pollards. The Sycamore has a large cavity at the base.

Both trees are within proximity of the structure. Further reduction in height will bring into scale the trees to their surroundings and allow their continued management as pollards.

The trees provide a screen between adjacent properties.

Recommendation

No Objection
