Hello Kwaku,

Transport comments are as follows:

- a. The site has good public transport accessibility, is located within a CPZ and within the Family Housing protection Zone.
- b. The proposal is car free, however no parking stress surveys have been undertaken / assessed.
- c. The proposal include cycle parking for flats 2-3 that is located within the entrance hall. However, the layout would not allow independent access for occupiers of these flats. The cycle parking provision for flat 1, is indicated to be located within the flat but has not been illustrated and no details for access have been provided.
- d. There is no provision for refuse storage on site.

Regards,

Shreekant Patel
