Site

The Poplar and Sycamore trees, as marked on the sketch, are situated in the rear garden of the property. They are visible from the private car park and surrounding properties.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The tree/s are protected by a Tree Preservation Order (TPO)

Proposal

Tree works proposed.

Works to trees protected by a TPO.

Poplar - Crown reduce back to the previous reduction points (approx. 3.5-4m height).

Maintenance works in line with good Arboricultural practice

Sycamore - Crown lift over the car park to a height of 6-7m. Maintenance works in line with good Arboricultural practice

(works to the Thuja will be considered separately under application reference HGY/2023/1054 for Works to Trees in a Conservation Area).

Issues

I hold no objections to the proposed tree works.

No photographs have been provided with the application however, from Goggle street view it is clear the Lombardy Poplar is a past topped tree with weak attachments and has been exposed to column vessel decay.

The Sycamore has been lifted before, is part of a line of trees on the back boundary and has poor morphology. It is assumed that the lifting is to abate for nuisance issues over the car park.

Recommendation

No Objection
