Comments Received

No comments were received in response to neighbour notification.

5. Principle of development

The application is identical to plans approved under reference HGY/2020/0958, HGY/2017/0801 and HGY/2014/0535, which were not implemented. The principle of two-storey side extension is considered acceptable having regard to the previously approved permissions, and all other matters taken into account. The proposed two-storey side extension remains identical to that approved under the above planning references.

6. Design

DPD Policy DM12 'Housing Design and Quality' states that extensions or alterations to residential buildings, including roof extensions will be required to be of a high, site specific, and sensitive design quality, and respect and/ or complement the form, setting, period, architectural characteristics and detailing of the original building, including external features such as chimneys, and porches. High quality matching or complementary materials should be used appropriately and sensitively in relation to the context.

DPD Policy DM1 'Delivering High Quality Design' requires development proposals to relate positively to their locality, while Local Plan (2017) Policy SP11 requires the highest standard of design that respects local context and character and historic significance, which is equally supported by London Plan (2021) Policy D6.

The proposed extension will reflect the appearance and character of the existing buildings in the vicinity and will not be detrimental to the character of the original dwelling or adjoining properties.

6. Impact on Neighbouring Amenity

London Plan Policy D6 outlines that design must not be detrimental to the amenity of surrounding housing, in specific stating that proposals should provide sufficient daylight and sunlight to surrounding housing that is appropriate for its context, while also minimising overshadowing. London Plan Policy D14 requires development proposals to reduce, manage and mitigate noise impacts.

DPD Policy DM1 'Delivering High Quality Design' states that development proposals must ensure a high standard of privacy and amenity for a development's users and neighbours. Specifically, proposals are required to provide appropriate sunlight, daylight and aspects to adjacent buildings and land, and to provide an appropriate amount of privacy to neighbouring properties to avoid overlooking and loss of privacy and detriment to the amenity of neighbouring residents.

By virtue of the scale, siting and design of the extension, there will be no material loss of privacy or amenity to neighbouring properties. The proposal is therefore acceptable in amenity terms.

7. Conclusion

The proposal is considered acceptable in respect of its appearance and impact on the site and would not result in material harm to the residential amenity of neighbours.

All other relevant policies and considerations, including equalities, have been taken into account. Planning permission should be granted for the reasons set out above.
