Site

The Cypress tree T1, as marked on the sketch plan and seen in the photograph, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Muswell Hill Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1- Cypress tree- (8m)- cut to ground level.

Issues

I hold no objections to the proposed removal of the Cypress tree.

The conifer tree has been planted close to the property and has the potential of reaching 18m.

The tree has no public visibility and is low grade and not worthy of a tree preservation order (TPO) when using a methodology for rating its worthiness of a TPO.

Recommendation

No Objection
