The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1) Lime - Reduce crown by 30% back to previous growth points

T2) Lime -Reduce crown by 30% back to previous growth points.

Issues

I hold no objections to the reasonable proposed tree works.

The specification is within good arboricultural practice and husbandry.

The crown will be reduced back to the most recent previous points.

Limes, generally respond well to such common practiced reductions.

Recommendation

No Objection
