Site

The Mimosa T1, and *Acer* spp. T2 trees, as marked on the sketch plan and seen in the photographs are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1 - mimosa tree (9m) - reduce crown to previous pruning points, approximately 3m reduction.

T2 - dead acer tree (3m) - take down to ground level.

Issues

I hold no objections to the proposed works. The Mimosa has been reduced before and they generally respond well to such pruning.

There is a condition to re plant dead, dying and dangerous trees within a Conservation Area.

Recommendation

No Objection

Condition Re plant *Acer* spp 10-12cm girth
