| Application type   | Conservation Area Notification                                                                                                                                                                                                                                                                                                                              |
| Site Address:      | Flat 2, 8 Clifton Road, Hornsey, London, N8 8HY                                                                                                                                                                                                                                                                                                             |
| Proposal           | We would like to reduce the twin stem smallish Ash tree in the rear garden by about 3 metres as it is in close proximity to the houses and in need of a reduction to minimise root expansion. As it is a twin stem, keeping it a good size will help for safety purposes by reducing the sail of the tree. It will also allow more light in to the gardens. |

|                  |              |                                  |
|------------------|--------------|----------------------------------|
| RECOMMENDATION:  | No Objection |                                  |
| Application date | 05/06/2023   |                                  |
| Tree Inspector   | DM           | Date: 27 <sup>th</sup> June 2023 |

## **Site**

The Ash tree, as shown in the photograph, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

## **Proposal**

Tree works proposed:

We would like to reduce the twin stem smallish Ash tree in the rear garden by about 3 metres as it is in close proximity to the houses and in need of a reduction to minimise root expansion. As it is a twin stem, keeping it a good size will help for safety purposes by reducing the sail of the tree. It will also allow more light in to the gardens.

## **Issues**

I hold no objections to reasoning of the proposed reasonable works.

The specification is within good arboricultural practice and husbandry.

## **Recommendation**

**No Objection**
