Site

The various shrubs/ tree G4 & T3, as marked on the plan, are situated in the front garden of the property. They are publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Muswell Hill Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T3 - Holly - Remove and treat stump to prevent tree regrowth

G4 - Mixed Shrubs - Remove and treat stump to prevent tree regrowth.

Issues

I hold no objections to the removal of the above as they are low grade and not worthy of a Tree Preservation Order.

This case is also implicated with indirect damage.

Various reports have been submitted including soil analysis however, there are no levelling monitoring results showing seasonal vegetative movement.

Recommendation

No Objection
