Site

The Lime *Tilia* spp trees are situated in the rear garden of the property. They are publicly visible from Milton Park and Milton Road.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

Lime x 3 (T2, T3, T4) – Re-pollard. To let more light into the garden.

Issues

I hold no objections to the reasonable repeat works of re pollarding the Limes back to there most recent and last pruning cuts (see photograph below).

This is common practice management regime for Limes. Their crowns generally restore themselves.

Recommendation

No Objection
