Site

The Cedar *Cedrus* spp. tree T1, as seen in the aerial photo and marked on the plan, is situated in the rear garden of the property. It is publicly visible from all cardinal points.

A site visit was deemed necessary to determine the appropriateness of the proposed works (19/06/2023 & 04/07/2023).

The tree is protected by a Tree Preservation Order (TPO)

Proposal

Tree works proposed.

Atlas Cedar T1 (20M high, 1200mm dia.) - Flat topped and very wide spreading tree. All pruning to be back to a suitable growth point.

1. NE side over 16 CW - draw back lateral growth by up to 1 metre
2. NW side over 8 Rookfield Avenue - draw back lateral overhang by up to 2 metres
3. W side over 10 RA - draw back lateral overhang by up to 2 metres
4. SW side over 18 CW - draw back lateral overhang by up to 2 metres
5. S side over hedge and footpath - draw back lateral overhang by up to 2 metres

Reason: Shading and very close proximity to buildings.

Issues

I hold no objections to the proposed reasonable works that are within good arboricultural practice and husbandry.

I met the contactor on site 04/07/2023 at 11am. Individual branches, for the specification above, were pointed out.

I am satisfied that the works are sensitive pruning to pull back slightly from the surrounding properties.

Similar pruning works have been carried out on the Cedar tree in the past.

Recommendation

No Objection
