Site

The Laurel tree T1, as shown in the plan and photograph, is situated in the rear garden of the property. It is not publicly visible from street level.

A site visit was deemed necessary to determine the appropriateness of the proposed works (21/06/2023 at approximately 12:30pm).

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

Tree T1 a Bay Laurel which completely covered and over grown with Russian Vine is to be felled.

Issues

I hold no objections to the proposed works. A site visit confirmed that the bay was dead and smothered by the Russian vine.

There is a condition to replant dead, dying, and dangerous trees within a Conservation Area.

Works will need to be done outside the bird nesting season.

Recommendation

No Objection
