Subject: FW: 98 Fortis Green Road 2023/0678 and 2023

This comment is submitted by the Muswell Hill and Fortis Green Association which has over 750 members.

In the application form there is no reply to the question about illumination in respect of either the fascia or the projecting sign. However, the description of the proposed development says the signage will be internally illuminated and the details provided on the projecting sign indicates that it will be LED illuminated. This would be contrary to the design guidelines for shopfronts in Muswell Hill town centre which states that external illumination is to be used. Can this please be drawn to the attention of the applicant so that the application can be amended. Also can it also be confirmed that the fascia will not be illuminated.

Thank you

John Crompton

Conservation Officer MHFGA
