Site

The Horse Chestnut tree T1, as marked on the sketch plan and seen in the photograph, is situated in the rear garden of the property. It is publicly visible from street level.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1: Horse chestnut (16m): Crown reduce by 2m, crown thin by 20% and remove epicormic growth to 5m from ground level at crown break as part of regular maintenance and to keep tree at a size suitable for its location.

Issues

I hold no objections to the reasonable proposed tree pruning.

The specification is within good arboricultural practice and husbandry.

The Horse Chestnut tree has been reduced before.

Recommendation
